

Notes on the Accounts for 2019

- Income was healthy at £58,637, but showed a drop against 2018 due to an unusually large donation in that year.
- Grants to the park (£30,834) showed a satisfactory increase against 2018 as we realised planned projects: historic tile restoration, Guide to the Birds in Holland Park, tree health, contribution to restoration of West Woodlands Enclosure, fencing to prevent compaction, and more.
- There was little change in funds carried forward. The total of £132,033 means we have sufficient to pay for some significant projects in 2020.
